AMAN KUMAR

Frontend Lead | Full Stack Developer | Next.js & React Specialist
Bokaro, Jharkhand · +91 9122889142 · itsaman1626@gmail.com · linkedin.com/in/aman1626

PROFESSIONAL SUMMARY

Frontend Lead and Full Stack Developer with 2+ years of experience building scalable web applications using Next.js, React, and Node.js. MCA graduate (CGPA: 8.82) with a track record of delivering 5 projects including 3 MVPs, leading frontend teams, and mentoring junior developers. Proficient in AI-assisted development — prompt engineering, GPT-4 integration, and GitHub Copilot — to accelerate delivery and improve code quality.

TECHNICAL SKILLS

Frontend:	Next.js (App Router), React.js, HTML5, CSS3, JavaScript (ES6+), TypeScript, Tailwind CSS
Backend:	Node.js, Next.js API Routes, REST APIs, JWT Authentication
AI & Prompt Eng.:	Prompt Engineering, GPT-4/LLM Integration, GitHub Copilot, AI Workflow Automation
Databases:	MySQL, Cassandra (CQL), PostgreSql
DevOps & Tools:	Git, GitHub, GitLab, CI/CD Pipelines(Basics), Docker (Basics), Postman
Other:	C/C++, Java, Python | Windows, Linux

PROFESSIONAL EXPERIENCE

Frontend Lead & Full Stack Developer
July 2023 – Present

Deeshaa Limited (Baseel Partners LLP) | London, UK (Remote)

- **Project Leadership:** Led frontend development across 5 projects as Frontend Lead; delivered 3 MVPs from planning to production deployment
- **Full Stack Development:** Built full stack applications using Next.js and Node.js with clean architecture and reusable component libraries
- **AI-Assisted Development:** Applied prompt engineering and GitHub Copilot for code generation and debugging; integrated OpenAI APIs for AI-driven product features
- **Performance Optimisation:** Improved Core Web Vitals by implementing lazy loading, code splitting, and SSR with Next.js
- **API & Integration:** Designed and consumed REST APIs with JWT authentication; integrated third-party services with robust error handling
- **Code Quality & Mentorship:** Conducted code reviews, enforced standards, and mentored 5+ interns/juniors through pair programming and technical sessions
- **UI/UX Implementation:** Translated Figma designs into responsive, accessible interfaces using React, Tailwind CSS, and TypeScript
- **CI/CD & Version Control:** Managed Git workflows and contributed to CI/CD pipeline setup using GitLab

ACADEMIC PROJECTS

- **Admin Dashboard (React.js):** Feature-rich dashboard with dynamic data visualisation and role-based access control
- **Student Management System (Node.js + CQL):** Backend system using Node.js and Cassandra for large-scale student record management
- **MERN CRUD Application:** Full-stack app using MongoDB, Express, React, and Node.js with RESTful API design
- **Loan Eligibility System (ML, Python):** Predictive model for loan assessment using scikit-learn
- **Portfolio Website (HTML/CSS/JS) | Weather App (Python + Tkinter):** Responsive portfolio and a desktop GUI integrating a live weather API

EDUCATION

Master of Computer Applications (MCA)
Pondicherry University | 2023 | CGPA: 8.82 / 10
Advanced software development, web technologies, application architecture, and machine learning.

Bachelor of Science in Computer Science (B.Sc.)
Bangabasi Morning College, University of Calcutta | 2020 | 64.8%
Programming, algorithms, database systems, and computer networks.

Senior Secondary – Class 12 (CBSE) | 2016 | 72%

Secondary – Class 10 (CBSE) | 2014 | CGPA: 9.2

CERTIFICATIONS

- **NPTEL – Joy of Computing Using Python | NPTEL – Foundations of R Software**
- **IIRS – Overview of Geoprocessing using Python**
- **Udemy – MySQL/SQL Data Analytics | Udemy – Python Hero: Full Course with Projects**
- **Udemy- Next.js 14 & React - The Complete Guide**
